

# Caister Castle CAR COLLECTION

Probably the largest and certainly the best privately owned motor collection open to the public in the UK.

With very many fine and rare veteran, vintage, classic, sports and touring automobiles and motorcycles, the collection contains more than 120 cars and 100 bikes and ranges from an 1893 Panhard et Levassor, the first real car in the world - through to a 1990's customised Harley Davidson. Various steam cars and electric vehicles are included as well as Jim Clark's Lotus, Peter Rachman's Cadillac and the very first Ford Fiesta.

Displayed in a purpose built exhibition centre recently extended from approx. 25,000 sq ft to almost double the size at 35,000 sq ft, the collection is complemented by displays of bicycles, horse-drawn vehicles, baby carriages, pedal cars and other related items.

## CAR COLLECTION

Caister Castle was built in 1432 by Sir John Fastolf. The ninety foot tower remains intact and visitors can climb to the top for a magnificent view of the castle ruins and the surrounding area. The castle is of historical interest both because it is one of the earliest buildings in England of importance to be built of brick and also of its connection with Fastolf and later the Paston family.
